SUMMARY

Full-stack developer with expertise in modern technologies, crafting innovative solutions that drive business growth. Proficient in frontend development with JavaScript and backend technologies. Built scalable SEO friendly web applications. Seeking a challenging role that leverages my technical expertise to deliver high-impact results.

EXPERIENCES

Elevate Labs

Web Developer Intern

Worked collaboratively on full-stack web projects with a focus on agile development and communication.

- Built responsive front-end interfaces using React and Tailwind CSS.
- Improved team collaboration and communication through regular code reviews.
- Wrote clean, maintainable code following industry best practices.
- Gained experience with Git-based workflows and deployment pipelines.
- Integrated REST APIs and ensured smooth client-server communication.
- Contributed to UI/UX improvements across different modules.

Astomverse

3D Artist & Community Contributor

Contributed to metaverse development as a 3D artist in an immersive virtual community.

- Designed and optimized 3D assets for interactive WebGL experiences.
- Explored metaverse platforms and immersive environments.
- Participated in brainstorming sessions and artistic direction meetings.
- Collaborated with developers to ensure accurate 3D model integration.
- Learned Blender workflows and exported optimized scenes for real-time rendering.

Oasis Infobyte

Project Intern – Full Stack Developer

Completed a hands-on internship building modern full-stack web applications from scratch.

- Built and deployed a full-stack web app using React, Node.js, and MongoDB.
- Improved code readability and performance through refactoring and best practices.
- Strengthened problem-solving and communication skills in a team-based setting.
- Followed agile development cycles and completed multiple sprint milestones.
- Integrated third-party libraries for authentication and state management.
- Built reusable components and modular architecture for scalability.

EDUCATION

B-Tech

[National Institute Of Technology Patna](#)

2024 - Current Patna

12th

[John Milton Public School](#)

2022 - 2023 Agra

10th

[National Institute Of Technology Patna](#)

2020 - 2021 Agra

KEY ACHIEVEMENTS

Developed a Library

- Built a modern frontend animation library using GLSL, Three.js, and GSAP with over 2.4k+ downloads on NPM.

Completed Multiple Internships

- Successfully completed internships in full-stack and 3D web development, gaining real-world project experience.

PROJECTS

Google Meet Clone

01/05/2024 - 10/05/2024

A real-time video conferencing app inspired by Google Meet.

- Implemented peer-to-peer video calling using WebRTC and Socket.IO.
- Built full authentication, room creation, and user management flow.
- Responsive UI using Tailwind CSS with dark mode support.
- Hosted on Vercel with stable signaling and media stream quality.

WorkBase

01/06/2024 - ongoing

A automated workflow creator build with nextjs and ingest, powered by ai.

- Built with next ,react , ingest , prisma and better auth.
- This project teach about clean code , scalability , background jobs and user experience.
- Responsive Editor built on the top of react flow .
- Background jobs and real time updates with ingest realtime.

Pizza Ordering App

24/06/2024 - 01/07/2024

An online pizza ordering web application with user authentication and cart functionality.

- Developed full-stack MERN application with dynamic routing and context API.
- Implemented user login, cart management, and real-time order status.
- Styled with Tailwind CSS and animated transitions for user engagement.
- Integrated backend with MongoDB for persistent storage of orders and users.

SKILLS

React js	Next js	Socket.io	Peer js	Node js	Gsl	inggest
Javascript	Three js	Gsap	Tailwindcss	Prisma		
mongodb	postgress	C	Python	Php		
Docker	Git & Github	AWS				

STRENGTHS

Technical Skills

I am technically proficient and consistently write optimized, clean, and scalable code.

Communication Skills

I genuinely enjoy collaborating and connecting with others to achieve shared goals.
